## HOUSING, TOWN PLANNING, Etc.

During the year 20 of the 40 houses for which plans were prepared in 1919 neared completion. The remaining 20 for which foundations have been prepared will follow in due course. This refers to the Housing Scheme of the District Council. They are very fair samples of the working-class type and compare favourably with those in adjoining districts.

The Colliery Company have raised and re-roofed seven houses, and the work is expected to continue.

## WATER SUPPLY.

The West Farm, containing 10 houses, is supplied from wells. The rest of the district derives its supply from the Newcastle and Gateshead Water Company. The water is good and the supply constant.

## SEWAGE and SCAVENGING.

The water-borne sewage is treated at the bacteria filter beds. Each house has a separate privy. There are 30 privies and open ash-pits; 367 combined privy and ash-pits, and 8 w.c.'s. Refuse is carted away to farm lands and waste ground.

## DAIRIES.

There are four dairies in the district, which are regularly inspected.

## SLAUGHTER-HOUSES.

There is one slaughter-house in the district, licensed and inspected.

I am, Gentlemen,

Your Obedient Servant,

**PERCIVAL HENDERSON,**
